

## A Quality and Affordable Small Business Communication System Solution

### The Nortel Norstar CICS Package(s) (Compact Integrated Communication System)

The Nortel Norstar CICS Package is an excellent starter communication system for small businesses desiring an affordable communication system solution providing a single site communication solution with user friendly handsets with speakerphone(s), integrated voicemail, automated attendant and easily connected devices such as integrated wireless and door telephones. These packaged systems have been removed from prior service and have been tested and refurbished to "like-new" condition. An excellent choice for a cost effective solution.
